HEARING FROM WASHINGTON HUNTERS

Citizen opinion is a key ingredient in the shaping of Washington's fish and wildlife policy and its recreation seasons.

The many ways the Washington Department of Fish and Wildlife (WDFW) collects public comment reflect how highly we value that citizen contribution. Besides long-standing forums such as commission meetings and citizen advisory groups, we have turned to new methods such as on-line opinion surveys. And for the past year, we have been collecting hunters' views by telephone, the Internet and in public meetings in the process of developing guiding game management principles that will shape the 2003-05 hunting rules package.

Last fall, our opinion-gathering efforts were broadened into a statewide series of public discussions that evaluated how well WDFW is connecting with its constituents. Held in each region of the state, the sessions brought panels of local citizens from many walks of life - hunters, fishers, farmers, business owners, wildlife viewers, educators and others - together to evaluate WDFW's staff contacts with customers, public involvement processes and information tools.

The department's outreach efforts generally received favorable reviews, but of course there is room for improvement. Suggestions from the public are already in the works. Several of those should make a big difference in customer service for hunters and others who do business with the department.

One major improvement on the horizon for hunters and fishers is interactive regulation information. Seasons and rules for a specific locale can be difficult to quickly retrieve from traditional printed pamphlets, which also are posted on WDFW's website. But interactive electronic pamphlets, once developed and posted, should allow users to simply type the name of a game management unit or fishing water, and see the pertinent season and rule information pop up on the computer screen. Development of such a feature involves considerable technical work, and thus will take some time to implement.

Here are some other improvements you may expect to see in coming months:

- Electronic mailing lists, organized by area of interest, to get information more effectively to appropriate audiences.
- A calendar of public involvement opportunities to assist citizens who wish to play a role in fish and wildlife issues and activities.
- A staff contact directory on our website to guide those seeking WDFW information to appropriate staff members.
- Creation of a license dealers' advisory group to improve customer service for license holders.
- Planning for production of maps and activity information for WDFW lands.
- Expanded cooperative efforts with individuals and non-governmental groups

to promote wildlife viewing, fishing and hunting activities. Dubbed "Go Play Outside," this on-going public-private partnership is already resulting in upcoming hunter clinics in several locations around the state.

These improvements, all suggested by hunters and others who enjoy Washington's wildlife, are highly valuable in improving customer service and the department's overall operations. We hope all those who value Washington's wildlife will continue to help improve WDFW operations by sharing their ideas with the department.

In the meantime, hunters are reminded that WDFW relies on another vital kind of feedback - hunt activity reports. The reports are required annually from transport tag purchasers whether or not they were successful and even if they ended up not going hunting. The hunt activity reports became mandatory last year. For the first year, 75 percent of hunters submitted their reports by the Jan. 31 deadline. This is the highest number of hunter reports received in the history of the Agency, but there is still room for improvement. Hunters that forgot to report last year's hunting activity will be allowed to purchase 2002 tags *only* after they have filed last year's hunting report. For hunter convenience, the reports can be completed either toll free by telephone or on the Internet. The penalty for non-reporting reflects how essential the activity reports are in managing the state's wildlife. So as you look forward to this year's hunt, please make sure you've taken the most important first step in preparing for the season.

You may purchase a Hunting License, Permit Application, or Raffle Tickets the following ways:

- At hunting and fishing license dealerships
- At WDFW Olympia and regional offices
- By using a toll free telephone number 1-866-246-9453
- Through the internet at www.fishhunt.dfw.wa.gov.

You may submit a Permit Application or report Hunting Activity in the following ways:

- By using a toll free telephone number 1-877-945-3492
- Through the internet at www.fishhunt.dfw.wa.gov.

NEW HUNTER REPORTING REQUIREMENT FOR DEER, ELK, BLACK BEAR, AND TURKEY HUNTERS

Accurate harvest information is essential for managing hunted wildlife. The information is used to monitor hunting regulation impacts and game population trends. It is also important to demonstrate hunters' commitment and responsibility for resource management and to maintain public confidence. When all hunters report their activity, harvest estimates, hunter effort and success rates all become much more accurate at local levels. **Hunters must report their hunting activity for each deer, elk, bear, and turkey tag acquired by January 31, 2003 by calling Toll free 1-877-945-3492 or over the Internet at www.fishhunt.dfw.wa.gov.**

Hunters who report within 10 days of killing an animal and unsuccessful hunters who report by midnight January 10, will be entered in a drawing for one of nine deer or elk special incentive permits. To be eligible for the drawing, hunters must report their hunting activity for each transport tag acquired. Winners of the drawing will receive a special incentive permit.

- There will be two (2) any elk special incentive permits for western Washington, two (2) any elk special incentive permits for eastern Washington, and five (5) statewide any deer special incentive permits valid for any area open to general hunting seasons or special permit hunting seasons, except Private Lands Wildlife Management Areas and a select number of closed GMUs determined by the Fish and Wildlife Commission.
- The hunt dates are September 1 to December 31, 2003.
- Open Season: The deer or elk permits will require a hunter to use archery equipment during archery seasons, muzzleloader equipment during muzzleloader seasons, and any legal weapon at other times if there are no firearm restrictions.
- Hunters who win the special incentive permit must send the appropriate license fee to the Department of Fish and Wildlife headquarters in Olympia. The Department will issue the license and transport tag and send it to the winners.

Hunters who have not reported their harvest for the tags acquired in 2002 will not be allowed to purchase a new license for that species next year until they do report.

Required to Hunt

Requirements to Hunt

1. Proof of Hunter Education

All individuals born after January 1, 1972, when purchasing a license, must show proof that they have completed a hunter education class or that they are not first-time hunting license buyers. A Washington hunting license from a preceding year is considered legal proof if the previous year license has the hunter ed. certificate number or previous year license number entered in the box.

2. Licenses, Tags, and Permits

Special Licenses: Taxidermy (to practice taxidermy for profit) and trapping licenses are sold only at the WDFW Olympia office.

Vehicle Use Permit: A Vehicle Use Permit (formerly known as a Stewardship Decal) is required for use of all posted WDFW lands. It is free with the purchase of a hunting, fishing or trapping license. The permit must be clearly displayed and visible from outside of the vehicle. It can be placed on the dash or hung from the rearview mirror.

Non- U.S. Citizens: Special regulations concerning firearms possession may apply to non-U.S. citizens. If you are not a U.S. citizen and plan to hunt with a modern firearm, contact the Washington Department of Licensing (360) 902-3770 or your consulate before you purchase a hunting license. NOTE: Licenses, tags, stamps, or permits may be required for wildlife-related activities not covered in this pamphlet.

Duplicate Licenses and Tags

If hunting license or tag documents are lost, duplicates can be obtained from license dealers or WDFW offices for a cost.

Refunds/Exchanges

No refunds of hunting licenses or transport tags. Exchanges of hunting license documents will not be made for hunters applying for a special permit, or after the hunting season opens.

Age Requirements and Restrictions

Anyone, regardless of age, must have in their possession a valid hunting license and any required tags, permits or stamps to hunt wildlife.

Youth under 16 need a state hunting license but not a federal migratory waterfowl stamp. Youth are eligible for reduced license fees.

Exhibit of License, Permits, Stamps, Tags and Wildlife

You are required to show a license, tag or permit, or display wildlife taken when asked to by a Fish and Wildlife officer or other law officer. You are also required to comply with the directions of WDFW personnel related to the collection of sampling data and/or material from wildlife.

Fish and Wildlife Check Stations

All hunters may be directed to stop at WDFW check stations and produce wildlife in their possession. Fish and Wildlife Officers may stop any person involved in a hunting or fishing activity for the purpose of inspecting hunting and fishing equipment, licenses, tags, or catch record cards and to inspect all fish and wildlife in their possession.

3. License and Tag Violations

You may:

—NOT buy, possess or attempt to obtain any license, tag, or permit by using false information; or if your license, tag, etc. has been revoked or the privilege has been suspended.

—NOT purchase or possess more than one of each license or tag, permit, or stamp during the same year, unless it is a legally-obtained duplicate or authorized by the Fish and Wildlife Commission.

—NOT transfer, loan to or borrow from another person any license, tag, permit, or stamp.

—NOT purchase or possess a resident license from another state, if hunting as a resident in Washington State.

You Can Make a Difference and Make a Statement With Personalized License Plates.

The Washington Department of Fish and Wildlife (WDFW) has launched a "Make A Difference – Make A Statement" campaign that is aimed at increasing public awareness of our state's Personalized License Plate program.

Proceeds from the sale of personalized license plates directly benefit Washington's wildlife species and their natural habitat. By buying personalized license plates, Washington vehicle owners support wildlife research, recovery efforts, and viewing opportunities for wildlife species such as bald eagles, burrowing owls, Columbian white-tailed deer, and spotted frogs. (See page 48)

Personalized plates are available for Washington passenger vehicles for \$44, with a yearly renewal fee of \$30. Forty dollars of the initial purchase and the entire renewal fee helps conserve wildlife species through WDFW's Wildlife Program. Personalized license plates allow motorists to "Make A Statement" while they "Make a Difference" to Washington's wildlife.

For more information on personalized license plates or to receive an application in the mail, call the Washington Department of Licensing at (360) 902-3770. Applications are available at your nearby license vendor or at WDFW Olympia and Regional offices. You can also log-on to the Department of Licensing web site at www.wa.gov/dol for an electronic application. While you're on-line, be sure to try the interactive **Inquiry Plate** to see if your personalized statement is available.

Licenses and Tags

RCW 77 and WAC 232

Explanations of the license requirements, license revocation, and license and tag violation sections are intended as general guides. They explain the general intent, but not the exact or entire wording of laws. Actual statutes and rules can be found in RCW 77 and WAC 232.

Advisory On Emergency Regulations Caution: Emergency regulations may occur while the seasons described in this pamphlet are in effect. Emergency regulations override the information stated in this pamphlet. Area news media will be informed of changes as they occur.

Aiding and Assisting

It is unlawful to aid or assist anyone in the commission of a game law violation.

Property Laws

1. Do not trespass

The state of Washington has strict laws prohibiting trespass on private land and owners are not required to post their land.

2. Littering

You may NOT place or leave litter on any land, either public or private, which is not your own.

3. Traps

It is illegal to take a wild animal from another person's trap without permission or to damage, remove, or destroy a trap. Exception: A trap may be removed by the property owner.

4. Driving vehicles on WDFW lands

You may NOT operate a motor-driven vehicle on lands owned, controlled, or managed by the WDFW, except as authorized. (Off-road travel on Department lands is usually prohibited).

Purchasing Your Licenses

Dealer Outlet Sales

Licenses may be purchased at over 500 license dealers across the state. For a license dealer near you, check our website at www.wa.gov/lic/vendors/vendors.htm

WDFW Office Sales

Licenses may be purchased at the WDFW Olympia office and at field offices in Spokane, Vancouver, Ephrata, Montesano, Yakima, Wenatchee and Mill Creek. See Information page for addresses.

Internet Sales

Using the WILD automated system, licenses may be purchased via the Internet at www.fishhunt.dfw.wa.gov

Telephone Sales

Using the WILD automated system, licenses may be purchased over the telephone at 1-866-246-9453.

Using the WILD System

Think of your WILD ID number as your permanent license number.

Using your WILD number will:

- Increase the accuracy of your licenses and license history.
- Require only one license document.
- Decrease the time spent at a license dealer.

2002 Hunting License Fees and Requirements

License requirements and fees are set by the Washington State Legislature.

Licenses are issued on a uniform April 1 through March 31 cycle rather than by calendar year. Fees listed below include a 9.5% transaction fee. The hunting package is divided into big game and small game licensing options.

Big Game - The big game package contains five options. All prices include license and tags. Forest grouse and unclassified wildlife (including coyote) may be hunted with either a small game license or big game license.

Small Game - The small game license allows the holder to hunt for wild animals and wild birds, except big game. The small game license includes one transport tag for a turkey and includes a prorated surcharge for Eastern Washington pheasant enhancement. There are additional charges for the second and third turkey tags, Western Washington pheasant permits, and migratory bird validations.

Federal and state law requires persons 15 or older to give their Social Security Number in order to obtain a license. (Federal Law US Code: Title 42, Section 666, Paragraph 13, Section A RCW 77.32.014).

**ENFORCEMENT
EMERGENCY/INCIDENT HOTLINE
Call Toll-Free at 1-800-477-6224**

The Washington State Department of Fish and Wildlife, Enforcement Program has a procedure for reporting fish/wildlife violations or reporting emergency situations, such as dangerous wildlife incidents. This encourages any citizen who witnesses a fish and wildlife offense, who has knowledge of a fish or wildlife offense, or has an encounter with dangerous wildlife, to report the violation/incident. Individuals who witness and would like to report a violation, can call toll-free 1-800-477-6224. Reports are confidential and are forwarded to a Fish & Wildlife Officer for investigation. Remember, this is not an informational hotline! This number is for emergencies only. Timeliness when reporting a violation is crucial.

Hunters, who provide violator information, leading to an arrest and conviction, could be eligible for a cash reward or Hunter Preference Points. Preference Points give you a better chance for the special permit season drawings.

If reporting a violation that has already occurred, call: WDFW Regional Offices, 8 a.m.- 5 p.m., Monday - Friday (Closed on state holidays)

Report hunting accidents to a regional WDFW office (see pg. 4) or the local State Patrol.

Violations and Penalties

Avoid Violations of the Law - Read through the regulations outlined on the following pages.

Common Violations

The most common violations are the easiest to avoid:

- Have valid and appropriate licenses, tags, and permits on your person when you hunt.
- Don't have a loaded shotgun or rifle in or on a motor driven vehicle.
- Immediately and completely remove the tag notches that indicate the month and day the animal was killed.
- Immediately attach your appropriate tag to the animal you've killed.

Major Causes of Hunting Accidents

Careless handling of firearms is the cause of most hunting-related accidents. Careless handling accidents can be prevented if shooters follow three simple rules:

1. Treat every firearm as if it were loaded. Keep the firearm pointed in a safe direction at all times.
2. Keep the firearm's safety on and the chamber empty until ready to fire.
3. Keep fingers away from the trigger until ready to fire.

There is no excuse for careless firearms handling and there is no way to call back a bullet!

License Revocations/Suspensions

Anyone who shoots another person or livestock while hunting will have their hunting license suspended for up to 10 years.

Anyone assaulting a Fish and Wildlife Officer or employee or agent of the agency performing their official duties will have their hunting licenses suspended for 10 years.

Hunting licenses can also be revoked on the second conviction for any of the following charges involving big game:

—Hunting during closed season, in a closed area, or with an artificial light or spotlight.

—Killing or possessing game in excess of the bag limit.

—Hunting, practicing taxidermy, dealing in raw furs, operating a game farm, collecting for research or displaying without required license, permit, tag, or stamp.

Criminal Wildlife Penalty Assessment

In addition to criminal penalties, courts assess a criminal wildlife penalty for conviction of illegally killing or possessing: deer, elk, bear, or cougar — \$2,000; moose, antelope, bighorn sheep, mountain goat, or any endangered species — \$4,000; trophy deer (four points or better), or elk (five points or better) — \$6,000; and mountain caribou, grizzly bear, or trophy mountain sheep (3/4 curl or better) — \$12,000.

Hunting Hours

Authorized hunting hours for big game during established seasons are one-half hour before sunrise to one-half hour after sunset. (See hours listed on page 44).

Always know your target.

The "golden hour" may be an effective time for finding game, but as light diminishes, so does your ability to identify your target. In these situations, make sure you know your target and what is beyond.

Hunter Orange Requirements

Under the following conditions a minimum of 400 square inches of fluorescent hunter orange exterior clothing is required. It must be worn above the waist and be visible from all sides. A hat, by itself, does not meet this requirement.

1. Anyone hunting deer or elk in an **area currently open to modern firearm deer or elk hunting** is required to wear fluorescent hunter orange clothing. This includes archers and muzzleloaders while hunting in units which overlap modern firearm seasons.
2. Anyone hunting in an **area that is open for modern firearm deer or elk hunting** must meet hunter orange requirements if they are hunting any of the following species: Bear, Bobcat,

Cougar, Coyote, Deer, Elk, Fox, Grouse, Hare, Rabbit, or Raccoon.

3. **During any upland game bird season, anyone hunting upland game birds or rabbits with a modern firearm** is required to wear fluorescent hunter orange clothing. (Grouse are not upland game birds.)

Hunter Orange Clothing Not Required

1. During an upland game bird season, anyone hunting upland game birds with a muzzleloading firearm, bow and arrow, or falconry is not required to wear fluorescent hunter orange clothing.
2. While hunting in a muzzleloading or archery only GMU, anyone possessing a valid muzzleloading or archery deer or elk tag is not required to wear fluorescent hunter orange clothing.

Definitions

Antler Point-Deer: A projection off any part of the antler measuring at least one (1) inch in length and longer than the width as measured from the tip to nearest edge of its origin. Antler points include eye guards if at least one (1) inch long.

Antler Point-Elk: A projection off any part of the antler measuring at least one (1) inch in length and longer than the width as measured from the tip to nearest edge of its origin. Antler points include eye guards, but antler points on the lower half of either main beam must be at least four (4) inches long, measured from antler tip to nearest edge of beam. All other points must be at least one (1) inch long.

Any Antlerless: Deer or elk without antlers; doe and fawn deer and cow and calf elk are antlerless.

Any Buck/Bull: Only deer/elk with visible antlers may be taken (fawns/calves illegal). Visible antler is a horn-like growth projecting above the hairline.

Bag Limit: Maximum number of game animals or game birds that may be taken, caught, killed, or possessed by a person for a specific period of time, or limits on the size, sex, or species.

Big Game: Elk, deer, bear, moose, mountain goat, bighorn sheep, and cougar.

Black-tailed Deer: Any member of black-tailed/mule deer (species *Odocoileus hemionus*) west of a line from the Canadian border south on the Pacific Crest Trail and along the Yakama Indian Reservation boundary in Yakima County to Klickitat County, and in Klickitat County west of Highway 97.

Closed Area: Area where the hunting of some species of wild animals or wild birds is prohibited.

Closed Season: All times, areas, and manners when the taking of wild animals and wild birds is prohibited.

Dashed ----- Lines or Hyphens: "Through" and is inclusive of those items; e.g., Sept. 1-30 means: Sept. 1 through Sept. 30. GMUs 124-136 means: all GMUs from 124 through 136.

Disabled Hunter: See page 15.

Eastern Washington: Includes all areas lying east of the Pacific Crest Trail and east of the Big White Salmon River in Klickitat and Skamania counties.

Endangered Species: Wildlife so designated by the Fish and Wildlife Commission because the species is seriously threatened with extinction.

General Season: Any hunting season that is open to all licensed hunters, excluding

special permit-only, damage and landowner damage hunts.

GMU: Game Management Unit. Boundary descriptions are used for management purposes.

Horn: A hard body permanent projection that grows on the head of mountain goats and bighorn sheep.

Hunt Choice Number: The four-digit number required on special permit applications.

To Hunt: Any effort to kill, capture, injure, or harass a wild animal or wild bird.

Migratory Game Birds: Coots, ducks, geese (including brant), mourning doves, band-tailed pigeons, and snipe.

Military Personnel: Military personnel, permanently stationed at a military installation within the state of Washington, regardless of length of time in the state, are entitled to purchase a resident license. All military personnel must have appropriate license, tags, stamps, or permits to fish or hunt anywhere in the state. Dependents must establish a 90-day residency.

Mule Deer: Any member of black-tailed/mule deer (species *Odocoileus hemionus*) east of a line from the Canadian border south along the Pacific Crest Trail and along the Yakama Indian Reservation boundary in Yakima County to Klickitat County, and in Klickitat County east of Highway 97.

Non-resident: A person who has not fulfilled the qualifications (90 days) of a resident. (Exception—See Military Personnel)

Open Season: All times, areas, and manner for legally hunting or possessing game animals or game birds. All hunting season dates listed in this pamphlet are inclusive.

Permit Only Season: Any hunting season that is open to a limited number (quota) of hunters.

Private Lands Wildlife Management Area (PLWMA): A designated area established by a partnership agreement between the WDFW and landowner to enhance wildlife habitat and provide public hunting opportunities on private lands.

Protected Wildlife: Wildlife designated by the Fish and Wildlife Commission that are not to be hunted or fished.

Public Highway: Any road, regardless of surface, maintained by public funds.

Resident: A person who has maintained a permanent place of abode within this state for at least 90 days immediately preceding

an application for a WDFW license; has established by formal evidence (drivers license or voter registration card) an intent to continue residing within this state; and who is not licensed to hunt or fish as a resident in another state.

Safety Zone: An area posted to no hunting by the WDFW for safety purposes.

Special Hunting Seasons: Hunting seasons set by rule of the Fish and Wildlife Commission for the purpose of taking specified wildlife with a special hunting permit.

Spike Bull Areas: Bull elk taken in these areas must have at least one antler that is a spike beam that does not branch above the ears. An animal with branched antlers on both sides is illegal, but an animal with a spike on one side is legal in spike only areas.

Two Point Minimum Buck: Any buck deer with at least two antler points on one antler is legal. (See page 27)

Three Point Minimum Buck/Bull : Any buck deer/bull elk with at least three (3) antler points on one antler is legal. (See pages 27 and 35)

Three Point Minimum or Antlerless (Deer and Elk): Any buck/bull with three (3) or more points on one antler **or** a deer/elk without antlers; (doe and fawn deer and cow and calf elk are antlerless.) (See pages 27 and 35)

Upland Game Birds: Quail, chukar, pheasant, and gray partridge. Grouse are not upland birds.

Valid License: A current unaltered license issued to the holder for the specific game animal hunted.

Valid Tag: A current, unaltered, unnotched tag issued to the holder to hunt for the specified game animal on the tag.

Visible Antler: A horn-like growth on the head of deer, elk, or moose that projects above the hairline.

Western Washington: All areas west of the Pacific Crest Trail and west of (and including) the Big White Salmon River in Klickitat and Skamania counties.

White-tailed Deer: Means any white-tailed deer (species *Odocoileus virginianus*) except the Columbian White-tailed deer (species *Odocoileus virginianus leucurus*).

Wild Animals: Includes all mammals except feral domestic mammals and old world rats and mice.

Wild Birds: All species of birds that exist in Washington in the wild state.

Youth: Under 16 years of age.

Equipment and Hunting Methods

1. Modern Firearm Regulations

Rifles—Elk, deer, and bear may be hunted with a minimum of 24 caliber (6 mm) centerfire. Cougar may be hunted with 22 caliber centerfire rifle. Rimfire rifles are not legal. **Handguns** must have minimum barrel length of 4 inches per manufacturers specification, and fire a minimum 24 caliber centerfire cartridge.

Shotguns—Deer, bear, and cougar may be hunted with 20 gauge to 10 gauge shotguns shooting slugs or #1 or larger buckshot. Other big game may be hunted with a 10 or 12 gauge shotgun using slugs.

2. Muzzleloaders

(a) It is illegal to carry or possess any firearm during special muzzleloading seasons which does not meet the following specification for muzzleloader: Is loaded from the muzzle and uses black powder or a black powder substitute as recommended by the manufacturer for use in muzzleloading firearms. Has a single or double barrel of at least 20 inches, rifled or smoothbore. Ignition is to be wheellock, matchlock, flintlock, or percussion using original style percussion caps that fit on the nipple and are exposed to the elements. Sights must be open, peep, or of other open sight design. Telescopic sights or sights containing glass are prohibited. Fiber optic sights are legal. It is unlawful to have any electrical device or equipment attached to a muzzleloading firearm while hunting.

(b) A muzzleloading firearm used for deer must fire a single, non-jacketed lead projectile of nominal 40 caliber or larger except that buckshot size #1 or larger, may be used in a smoothbore of 60 caliber or larger.

(c) A muzzleloading firearm used for all other big game must fire a single, non-jacketed lead projectile of nominal 50 caliber or larger, or at least 170 grains.

(d) Muzzleloader hunters can carry a

handgun designed to be charged with black powder only. It is NOT legal for hunting or dispatching big game.

(e) Muzzleloader hunters may lawfully hunt game birds with a muzzleloader shotgun.

(f) Only one barrel of a double barrel muzzleloader may be charged with a load at any one time while hunting in a muzzleloading season. Muzzleloaders hunting in a firearm restriction area, outside of a muzzleloader season, may have both barrels charged.

(g) In-line Muzzleloader: In-line muzzleloaders are legal only if ignition uses original style percussion caps that fit on the nipple and are exposed to the elements.

3. Archery

(a) It is illegal to hunt big game animals with a bow that has less than 40 pounds of pull measured at 28 inches or less draw length or has a greater than 65% reduction (let off) in holding weight at full draw.

(b) It is illegal to hunt big game animals with any arrow, including broadhead, measuring less than 20 inches in length, weighing less than 6 grains per pound of draw weight, and having sharp broadhead blade or blades less than seven-eighths inches wide. It is unlawful to hunt with a broadhead blade unless the broadhead is unbarbed and completely closed to the back end of the blade or blades by a smooth, unbroken surface starting at maximum blade width forming a smooth line toward the feather end of the shaft and such line does not angle toward the point. Retractable styled broadheads are illegal.

(c) It is illegal to carry or have in possession any firearm while in the field archery hunting, during the archery season specified for that area.

(d) It is illegal to shoot at wildlife with an arrow from a vehicle or from, across, or along the maintained portion of a public highway.

(e) It is illegal to use any device secured to or supported by the bow for the purpose of maintaining the bow at full draw or in a firing position, except for disabled hunters with archery special use permits in compliance with WAC 232-12-054.

(f) It is illegal to have any electrical equipment or device(s) attached to the bow or arrow while hunting.

(g) It is unlawful to hunt wildlife with a crossbow.

4. Carrying a modern firearm or handgun during archery or muzzleloader seasons

It is illegal to possess a handgun or any firearm while hunting deer or elk with an archery tag/season.

It is illegal to carry any modern firearm while hunting deer or elk with a muzzleloader tag/season.

5. Dispatching wounded game

A hunter can only use a hunting method that meets the equipment requirements of his/her tag to dispatch wounded game.

6. Loaded firearms in a vehicle

It is illegal to carry, convey, transport, possess, or control a loaded shotgun or rifle in or on any motor vehicle. A rifle or shotgun containing shells or cartridges in either the chamber or magazine, or a muzzleloading firearm that is loaded and capped or primed is considered loaded.

Go Play Outside

Direct involvement with the great outdoors is one of the best ways for young people to learn about natural resources and wild places. It's up to us – today's hunters – to provide supervised, structured activities to help pass the hunting heritage along to the next generation.

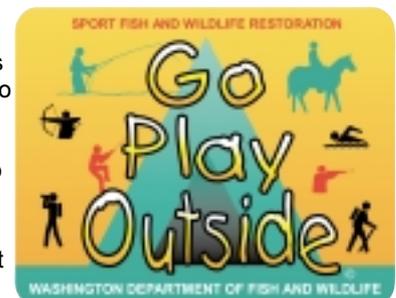

“Go Play Outside” is a new WDFW effort to develop partnerships that promote outdoor recreation skills, encourage the ethical use of the outdoors, and provide guidance to those wishing to participate in fishing/shellfishing, hunting, sport shooting, and wildlife watching.

If you are interested in sponsoring an event or activity, presenting a workshop, or providing mentoring services please contact WDFW by phone, internet, email, or by mail.

Prohibited Hunting Methods

1. **Hunting with artificial lights**
Hunting big game with the aid of an artificial light or spotlight is prohibited.
2. **Shooting at wild animals or wild birds while they are on any utility line, pole, its crossarm or insulator is prohibited.**
3. **Using aircraft**
Using aircraft to spot, locate, or report the location of wildlife for the purpose of hunting, or hunting big game on the same day you are airborne, except for a regularly scheduled commercial flight, is prohibited.
4. **Hunting wildlife from a motor vehicle is prohibited** (Exceptions: see Disabled Hunters below)
5. **Using aircraft, boats, or motor driven vehicles**
Using aircraft, boats, or motor driven vehicles to pursue, concentrate, or harass wildlife is prohibited. This includes ATVs. Hunting from boats with motors is permitted if the motor is off and it is not contributing to the boat's propulsion.
6. **Discharging a firearm from, across, or along the maintained portion of any public highway, regardless of surface, is prohibited, except for disabled hunters in compliance with WAC 232-12-828.**
7. **Party hunting is illegal**
It is illegal to harvest a game animal for another hunter. (Exceptions: see Disabled Hunters below)
8. **Using Dogs**
Hunting wild animals with dogs during any deer or elk centerfire rifle season is prohibited.
Hunting or pursuing any big game animal or bobcat with dogs is prohibited.
Allowing a dog, owned or controlled by you, to pursue or injure deer or elk or to accompany you while you are hunting deer or elk is prohibited.
9. **Hunting during modern firearm deer or elk seasons**
You may not hunt wildlife during any modern firearm deer or elk season, with any firearm 24 caliber or larger or containing slugs or buckshot for big game, unless you have a valid license, permit and tag for one of the following: deer, elk, black bear, cougar, mountain goat, bighorn sheep, or moose.
During any modern firearm deer or elk season, it is illegal to hunt any wildlife after legal hunting hours. (See exception to legal big game hunting hours on page 44.)

10. Prohibited firearms/hunting methods

It is illegal to:

- a. Hunt game birds with a shotgun capable of holding more than three shells.
- b. Hunt game birds with a rifle or pistol, except forest grouse.
- c. Hunt game birds or game animals with anything other than a firearm, a bow and arrow, or by falconry.
Bullfrogs may only be taken by angling, hand dip netting, gigging, and bow & arrow.
- d. Hunt game animals or game birds with a shotgun larger than 10 gauge.
- e. Hunt wildlife with a crossbow.
- f. Hunt wildlife with a fully automatic firearm.

Persons with Disabilities

WDFW issues a *Disabled Hunter Permit* to persons with permanent disabilities under certain conditions. For a complete understanding, read WAC 232-12-828. Hunters with disabilities must follow special hunting regulations and restrictions while using this permit. Not every person with a disability will qualify for the WDFW disabled hunter permit.

A person with a disability means a person with a **PERMANENT** disability who is:

- (1) not ambulatory over natural terrain without a prosthesis or assistive device such as, but not limited to wheelchair, crutches, cane, or
- (2) unable to hold or shoot a firearm or other legal hunting device, or
- (3) totally blind or visually impaired. Visually impaired means central visual acuity that does not exceed 20/200 in the better eye with corrective lenses, or the widest diameter of the visual field is no greater than 20 degrees.

(This definition includes, but is not limited to persons with upper or lower extremity impairments who have lost the use of one or both upper or lower extremities, or who have a significant limitation in the use of upper or lower extremities, or who have a

diagnosed disease or disorder which substantially impairs or interferes with mobility or the use of upper extremities.)

Disabled Hunter Road Entry Opportunities

Many new opportunities are being developed and existing areas may be changing for hunters with disabilities using a motor vehicle to enter "walk-in" only (closed roads) areas. These opportunities are in cooperation with the Department of Natural Resources (DNR), US Forest Service, Department of Fish and Wildlife, private landowners, and private timber companies. Hunters with disabilities who have the official WDFW Disabled Hunter Orange Placard displayed, and under certain conditions identified by special entry permits, MAY be allowed to drive on some roads, otherwise closed to all other unauthorized vehicles. Proper signage and vehicle identification is required. (*Able-bodied walk-in hunters please respect hunters' with disabilities rights in these areas, and remember no harassment of properly identified persons with disabilities is allowed*).

Access roads are identified through signage at the gated entry points.

Information about road entry opportunities will be posted on the department's web page at www.wa.gov/wdfw.

Information regarding the drawing for special entry areas will be posted on the web page. Information packets will be available at WDFW regional offices after areas have been secured, or after June 30th. For information about opportunities on **DNR Lands Only**, call **1-877-283-3633**. For other information about any other areas call **WDFW at 360-902-2349**.

Other opportunities are available through the special deer and elk permit drawings and the Private Lands Wildlife Management Area (PLWMA) permit drawings in this pamphlet. Accessible duck and goose blinds are located around the state on private, state, and federal lands (also located on the website or call 360-902-2349). For more information contact any office of WDFW. To request an application for a Disabled Hunter Permit contact the WDFW License Division at 360-902-2464.

Hunting Access and Restrictions

1. Military installations. Hunting is allowed on some military lands, but these areas usually require permission or a permit from military authorities. Hunters should check with the military installation before entering these lands.

2. State lands. Most state lands are open to hunting unless they are closed by state, local, or municipal laws. State parks are closed to hunting and trapping.

3. U.S. Fish and Wildlife Refuge lands. Hunting is allowed on most National Wildlife Refuges with specific restrictions applying to species, bag limits, season dates, and legal weapons. Hunters should contact the refuge directly to obtain information before hunting on National Wildlife Refuge lands.

4. Private lands. It is unlawful to trespass. State hunting regulations apply to hunting private land, but do not guarantee access. Entry onto any lands which are fenced, posted, cultivated, or used for commercial agricultural crops or aquaculture without permission is considered trespass. Some private landowners (individuals or corporations) have chosen to deny access to, or across, their property. Check with landowners before entering their property. It is always best to obtain landowner permission before entering private property.

It is unlawful to:

...Hunt in areas posted with *Hunting Only by Written Permission*, without a permission card signed by the landowner on your person.

...Hunt or shoot behind a *Safety Zone* sign.

...Operate a motor vehicle (including ORVs) behind a *No Unauthorized Vehicles* sign unless specifically authorized by the landowner under the Regulated Access Cooperative Agreement with the WDFW.

Some private lands may be open weekends only.

Weyerhaeuser St. Helens Tree Farm Access Hotline 1-866-636-6531.

Firearm Laws

Aliens and felons may not possess firearms.

Restricted and Prohibited Hunting Areas

These areas are closed by Fish and Wildlife Commission action. Other areas may be closed to hunting by local, state, or federal regulations. It is illegal to hunt, except where provided, in the following areas:

1. Little Pend Oreille National Wildlife Refuge (Stevens Co.): The southern part of the Little Pend Oreille Natl. Wildlife Refuge in Stevens Co. is closed to hunting and discharge of firearms except during the periods of April 15-May 15 and Oct. 1-Dec. 31. This closure is south of a boundary beginning at the west project boundary in Sec. 3, Township 34 N, R 40 EWM; then E along Rd. 1.0 (Bear Creek Rd.) to the intersection with Rd. 2.0 (Blacktail Mountain Rd.) in Sec. 2; then E along Rd. 2.0 to the east boundary in Sec. 8, Township 34 N, R 42 EWM. The Little Pend Oreille Natl. Wildlife Refuge north of the preceding boundary is open to all legally established hunting seasons from April 15-May 15 and September - December.

2. Parker Lake (Pend Oreille Co.): All lands S. of Ruby Creek Rd. (USFS Rd. 2489), N. of Tacoma Creek Rd. (USFS Rd. 2389) and W. of Bonneville Power Administration powerlines are designated as "CLOSED AREA" to the hunting of wild animals and wild birds year around. Closures #1 and #2 were established to provide a protected area for the Air Force Military Survival Training Program.

3. Columbia River and all the islands in the river, and the Benton County shoreline below the high water mark, and any peninsula originating on the Benton County shoreline, between Vernita Bridge (Hwy. 24) downstream to the old Hanford townsite powerline crossing (wooden towers) in Sec. 24, T 13 N, R 27 E, is designated as a "CLOSED AREA" to the hunting of wild animals and wild birds.

4. Green River (GMU 485) (King Co.): Except for special permit hunters, who may also take a black bear and/or cougar with the appropriate license/tag options, all lands within GMU 485 are designated as a "CLOSED AREA" to the hunting of wildlife by WDFW regulated hunters. The City of Tacoma enforces trespass within GMU 485 on lands owned or controlled by the City during all times of the year.

5. McNeil Island (Pierce Co.): McNeil Island (part of GMU 652) is closed to hunting year around.

6. Loo-wit (Cowlitz & Skamania Cos.): All hunting and trapping closed in GMU 522 (Loo-wit).

7. The Voice of America Dungeness Recreation Area County Park in Clallam County is closed to all hunting except Wednesdays, weekends, and holidays, from the first weekend in October to the end of January.

Unlawful Possession of Firearms

Washington State Law, RCW 9.41.040, states:

"A person, whether an adult or juvenile, is guilty of the crime of unlawful possession of a firearm in the first degree, if the person owns, has in his or her possession, or has in his or her control any firearm after having previously been convicted in this state or elsewhere of any serious offense as defined in this chapter."

Have you previously been convicted in this state or elsewhere of a crime which may affect your privilege to carry a firearm? If you have been convicted of one of the offenses as defined in Chapter 9.41 RCW and are found in possession of a firearm while hunting you may be subject to arrest. If you are in doubt, seek appropriate legal counsel. Possession rights may in some cases be restored per Chapter 9.41 RCW.

Firearm Restriction Areas

The firearm restriction areas listed have been established by the Fish and Wildlife Commission. Centerfire and rimfire rifles are not legal for hunting in these areas.

In firearm restriction areas, hunters may hunt only during the season allowed by their tag.

- 1) Archery tag holders may hunt during archery seasons with archery equipment.
- 2) Muzzleloader tag holders may hunt during muzzleloader seasons with muzzleloader equipment except in the GMU 652 restriction area outlined for King County.
- 3) Modern firearm tag holders may hunt during modern firearm seasons with bows and arrows, muzzleloaders, or revolver-type handguns meeting equipment restrictions, or legal shotguns firing slugs or buckshot.

Firearm Restriction Areas

(By County):

PLEASE NOTE - Other firearm restriction areas are established by local ordinance. Please consult your local sheriff or city for other firearm restriction areas.

Clallam - The portion of GMU 624 (Coyle) within Clallam Co.

Clark - GMU 564 (Battle Ground).

Cowlitz - GMU 554 (Yale); GMU 504 (Stella). That portion of GMU 564 (Battle Ground) in Cowlitz Co.

Grays Harbor - That portion of GMU 658 (North River) beginning at Bay City; then west along Highway 105 to Twin Harbors State Park; then south along Highway 105 to Grayland Grocery; then east on Cranberry Road to Turkey Road; then east and north on Turkey Rd to Bayview Logging Road; then north and east along Bayview Logging Road to Mallard Slough; then east and south along the Bayview Road to Andrews Creek; then north along main channel of Andrews Creek to Grays Harbor; then north and west along the main navigation channel to Bay City and point of beginning.

The Chehalis Valley restriction applies only during elk seasons: That portion of GMU 660 (Minot Peak) described as

follows: Beginning at Highway 12 and Highway 107 junction near Montesano; east and south on Highway 12 to Oakville; south on the Oakville-Brooklyn Road to a point one mile west of South Bank Road; northwest along a line one mile southwest of the South Bank Road to Delzene Road; north along Delzene Road to South Bank Road; northwest along South Bank Road to Wakefield Road; north on Wakefield Road to the Chehalis River; west along the Chehalis River to Highway 107 bridge; north on Highway 107 to Highway 12 to the point of beginning.

Island - The portion of GMU 410 (Island) on Camano and Whidbey islands.

Jefferson - Indian and Marrowstone islands.

King - The area W of Hwy 203 (Monroe-Fall City, Fall City-Preston Rd) to I-90, I-90 to Hwy 18, Hwy 18 to I-5, I-5 to Pierce-King Co. line; Vashon and Maury islands.

King - The following portion of GMU 652 (Puyallup): Beginning at the intersection of Hwy 410 and southeast Mud Mountain Dam Rd near the King-Pierce Co. line N of Buckley; E on southeast Mud Mountain Rd to 284th Ave SE; N on 284th Ave SE to Hwy 410; W on Hwy 410 to point of beginning. (This restriction includes high power rifles and muzzleloaders.)

Kitsap - E of Hwy 16 originating at the Tacoma Narrows Bridge to Gorst, and E of Hwy 3 to Newbury Hill Rd, N of Newbury Hill Rd and Bremerton-Seabeck Hwy to Big Beef Creek Bridge; all of Bainbridge Island; and Bangor Military Reservation.

Kittitas - GMU 334 (Ellensburg) Closed to high power rifles during deer and elk seasons.

Mason - GMU 633 (Mason Lake) S of Hammersley Inlet; and all of Hartstene Island.

Pacific - GMU 684 (Long Beach) W of Sand Ridge Rd. The portion of GMU 658 (North River) south and west of State Hwy 105 and Airport Rd between Raymond and North River Bridge. **GMU**

681 between U.S. Highway 101, Chinook Valley Road and the Columbia River from Astoria - Megler bridge to the Wallacut River.

Pierce - GMU 652 (Anderson and Ketron islands) limited to archery, shotgun, and muzzleloader. McNeil Island closed to hunting. See GMU 652 restriction area outlined for King County. GMU 627 (Kitsap) S of Hwy 302 on Longbranch Peninsula is a firearm restriction area.

Snohomish - W of Hwy 9.

Skagit - Guemes Island and March Point N of Hwy 20.

Thurston - GMU 666 (Deschutes) N of U.S. Hwy 101 and I-5 between Oyster Bay and the mouth of Nisqually River.

Whatcom - Area W of I-5 and N of Bellingham city limits including Lummi Island and Point Roberts.

Big Game Closures

1. Clark, Cowlitz, Pacific, and Wahkiakum counties are closed to Columbian white-tailed deer hunting.

2. Cathlamet: Beginning in the town of Skamokawa; E on SR 4 to Risk Rd; S & E on Risk Rd to Foster Rd; S on Foster Rd to Elochoman River; upstream along Elochoman River to Elochoman Valley Rd (old SR 407); W on Elochoman Valley Rd to SR 4; E on SR 4 to SR 409; S on SR 409 to Cathlamet Channel of Columbia River; E along N shore of Cathlamet Channel to Cape Horn; S in Columbia River to the state line; W along the state line to a point directly S of the mouth of Skamokawa Creek; N on Skamokawa Creek to SR 4 and point of beginning. This area is closed to deer and elk hunting to protect the Columbian white-tailed deer.

3. Willapa National Wildlife Refuge: Except for Long Island, Willapa National Wildlife Refuge is closed to all big game hunting.

4. Walla Walla Mill Creek Watershed (GMU 157): All lands in the Mill Creek Watershed are designated as a "CLOSED AREA" to the hunting of all wild animals and wild birds except for holders of special elk permits during the established open season. This area is closed to motorized vehicles. Entry shall be allowed only by Forest Service Permit for the duration of the hunt. Any entry into the Mill Creek Watershed at other times is prohibited.

5. Westport: Closed to hunting of all big game animals on that part of Westport Peninsula lying N of State Hwy 105 from the west end of the Elk River Bridge and Schafer Island Road to the ocean beach.

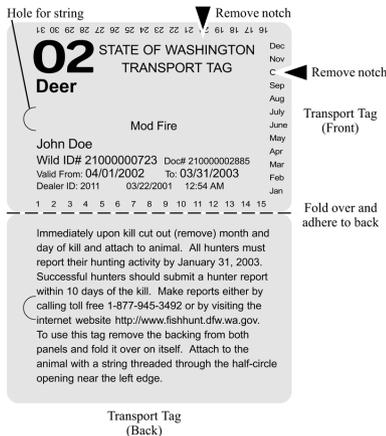

6. Colville: The taking or hunting of big game or grouse within the Colville Indian Reservation boundaries is prohibited. The trapping of furbearers within the Colville Indian Reservation boundaries is prohibited.

Tagging and Transporting

1. Tag your big game immediately

Immediately after any big game animal has been killed, the appropriate tag of the person who has taken the animal must be:

- **Validated** (The proper triangle notches noting the month and day of the kill must be completely removed.)
- **Securely attached** to the carcass in a visible manner.

Notches must be completely removed.

A slit is not acceptable.

2. Transporting wildlife

You must transport any big game animal with the proper tag attached. The properly validated tag must remain with the meat until it is eaten (including cold storage). If quartered, the tag should remain with the carcass or largest portion of the carcass. If you need to take the head to a taxidermist and the meat to be processed, you can complete a taxidermy ledger or invoice, providing information outlined under "Possession and Use of Wildlife" for the taxidermist, and keep the tag with the meat at the processor. The tag should remain attached to the hide of a bear or cougar until it is tanned.

3. Evidence of animal's sex

(a) The feathered heads of game birds must be attached to the carcass when they are in your possession in the field or are being transported.

(b) It is illegal to possess or transport big game animals unless evidence of the animal's sex is left naturally attached to the carcass until the carcass is processed or stored for consumption. Evidence of sex means:

Male — head with antlers or horns attached or penis or testes naturally attached to at least one quarter of the carcass or to the largest portion of meat.

Female — the head or udder must be naturally attached to at least one quarter of the carcass or to the largest portion of meat.

(c) Big game taken in antler or horn restriction areas: The head or skull plate, with both horns or both antlers naturally attached, must accompany the carcass while in transit or in possession.

4. New hunter reporting requirements

All deer, elk, black bear, and turkey hunters must report their hunting activity for each tag acquired by January 31 by calling Toll Free 1-877-945-3492 or over the Internet at www.fishhunt.dfw.wa.gov

Possession and Use of Wildlife

1. Transporting game or portions of meat taken by somebody else

If you transport or possess wildlife (or parts) killed by someone else, you must possess a written statement showing the name, address, license, permit or tag number; the number and kind of animal provided, the date killed, county, and area it was taken in, and the hunter's signature.

2. Waste of wildlife

You may NOT allow game animals or game birds you have taken to recklessly be wasted.

3. Purchasing or selling wildlife or their parts

Non-edible portions of wild animals and game birds may be sold or traded (antlers, hides, teeth), except for cougar; bighorn sheep; mountain goat; velvet antlers of deer or elk; or the gall bladder, claws, and teeth of bear, except those claws or teeth permanently attached to a full bear skin or mounted bear or the raw fur of a wild animal or the wild animal itself, if the wild animal, has been trapped in this state with a body gripping trap.

4. Wildlife found dead

You may remove and dispose of wildlife found dead on your property or an adjoining public roadway, but you must first notify WDFW. Dead

wildlife can only be removed for disposal, not for personal use or consumption.

5. Possession of antlers

It is legal to possess naturally shed antlers of deer and elk.

6. Stolen wildlife

Lawfully-tagged wildlife is personal property. Theft of wildlife should be reported to local law enforcement.

7. Endangered Species

It is illegal to hunt, possess, or control protected wildlife or endangered species. Endangered species are: pygmy rabbit; fisher; gray wolf; grizzly bear; sea otter; sei, fin, blue, humpback, black right, and sperm whales; Columbian white-tailed deer; woodland caribou; American white and brown pelicans; sandhill crane; snowy plover; upland sandpiper; spotted owl; western pond and leatherback sea turtles; mardon skipper and Oregon silverspot butterflies; and Oregon spotted and northern leopard frogs.

8. Protected Wildlife

It is illegal to hunt, kill, possess, or control protected wildlife. Protected wildlife are: Cascade golden-mantled ground, golden mantled ground, Washington ground, red, Douglas, northern flying and western gray squirrels; steller and California sea lions; seals; dolphins; porpoises; whales, green sea, loggerhead sea and painted turtles; Larch Mountain salamanders; pygmy whitefish, margined sculpins; Olympic mudminnows; cony or pika; North American lynx; Aleutian Canada geese; common loon; least, yellow-pine, Townsend's red-tailed chipmunks; hoary and Olympic marmots; wolverines; California mountain kingsnakes; all birds not classified as game birds, except, starlings, house sparrows and magpies; all bats, except when found in or immediately adjacent to a dwelling or other occupied building.

9. Depredating Wildlife

Starlings and house sparrows may be taken at any time. Crows may be taken during the crow season or in the act of depredation. Crow season: Statewide, no limit, Oct. 1, 2002 - Jan. 31, 2003. Magpies may be taken only in the act of depredation (damaging crops or other property).

2002 Cooperative Road Management Areas

WDFW, with the help of state, federal and private landowners, coordinates the closure of certain roads to reduce hunter crowding and disturbance to wildlife. Roads have been closed to vehicular traffic in over 65 areas, providing over a million acres of relatively undisturbed prime hunting habitat. It is illegal to operate a motor-driven vehicle on closed roads unless exempted by WDFW or the cooperative agency or company. **Road management areas are not closed to all entry, just motorized vehicles. You can walk, bicycle, or horseback ride in the area as much as you like!**

There two types of road closures in the program.

1. "Posted Closed" System. Roads that are closed in an area are posted "closed to vehicular traffic.

2. Green Dot System. Under this system, all roads in an area are closed unless posted OPEN with a green dot. You may drive on any roads that have circular green reflectors posted along the roadway. Roads without green reflectors are closed to motor vehicles. To help users, large information boards can be found at major points of entry into the area. Areas under the Green Dot System are designated with (*) below.

Only portions of the identified GMUs below contain road management areas. Free maps of many road management areas are available at the Olympia Enforcement office. Each WDFW regional office has copies of road management areas in that region.

Why Close Roads?

Studies in the Pacific Northwest have shown that most big game animals avoid active roads by at least one-quarter mile, and some move as much as four miles to escape traffic. Closing roads can provide large undisturbed areas for wildlife, like elk, deer, bighorn sheep, eagles, and wild turkeys during critical times of the year.

Intensively managed forests may have three to nine miles of road for each square mile of habitat. For each mile of road, at least four acres are directly removed as productive habitat.

Every animal has a limited amount of energy to survive. Energy spent moving away from disturbances can deplete the energy needed to survive to late spring or give birth to a healthy elk calf. By limiting disturbance, road closures can enhance the health, reproduction, and number of animals in an area.

Special Hunting Season Permit/Application Instructions

Special Hunting Season Permits are used primarily to take limited numbers of female deer and elk for recreation and population control purposes. They are also used to provide high quality hunting experiences by limiting access, allowing only mature animals to be taken, or timing the hunt when the likelihood of success is greater. These permits also provide the opportunity to hunt animals which are not numerous such as mountain goat, moose, and bighorn sheep. A permit does not allow a hunter to take an extra animal, unless specified on the permit.

Weighted Point Drawing System - The system is designed to give applicants who have failed to draw in the past a better chance to draw in the future. It is based on the application history of each applicant. Each year a point is earned by applicants who fail to draw a permit for a species. Points accumulate in each species category. When a hunter draws a permit, the hunter's point total for that species drops to zero. Everyone has a chance to be drawn, but those who have been applying for several years have a better chance of drawing a permit.

New Licensing System (WILD) - The new licensing system makes it possible to bring about some changes in the special hunting season permit drawing system. It will reduce the number of errors made while applying and eliminate the incidence of lost applications experienced under a system using paper application forms.

Permit applications may be purchased in the following ways:

- At hunting and fishing license dealerships
- at WDFW Olympia and regional offices
- by using a toll free telephone number (866) 246-9453
- through the internet at www.fishhunt.dfw.wa.gov
- **Special permit applications for deer, elk, goat, sheep, moose and turkey will be available for purchase starting May 15, 2002.**

The cost of an application for a special hunting season permit is \$5.00 for residents, \$50.00 for non-residents, and \$3.00 for youth.

Mailing Address - When purchasing your hunting license for the 2002 license year, it is very important to provide the license dealer with your mailing address. The new licensing system is able to record both your physical street address and your mailing address. If your mailing address is different from your street address, you will need to provide your mailing address.

Everyone that applies for a special hunting season permit is mailed the results of the drawing or a permit. If your mailing address is not correct in your license records, you will not receive your notification or permit.

Application Deadline - Special permit applications for deer, elk, mountain goat, moose, bighorn sheep, and turkey must be

submitted no later than midnight June 23, 2002. After that time, special hunting season permit applications will not be accepted. There is no other way to submit an application. Paper documents will no longer be used or accepted.

The Application Process - These are the steps to follow to submit an application for a special hunting season permit:

1. Purchase an application from a hunting and fishing license dealership, use the toll-free telephone sales number, or the internet. If you purchase your applications from a license dealer, your only record will be your sales receipt. If you purchase your applications using the telephone, you will receive a receipt in the mail. If you purchase your applications over the internet, you can print your shopping cart. The receipt or shopping cart will display your WILD identification number, the species for which you purchased an application, and the cost of each application.
2. Read the 2002 Big Game Hunting Seasons and Rules pamphlet to see what hunt choices are available for each species.
3. Fill in the "worksheet" to use while submitting your application. Do not mail in this form. It is not an application and will not be accepted as one.
4. Decide if you want to apply alone or with a group, identify the group leader (if you want to apply as a part of a group). Note: applying as a group does not increase your chances of being successfully drawn.
5. Decide which hunt choices you prefer and in what order.
6. Submit the application. Either call the toll-free special permit application number at 1-877-945-3492 or visit the WDFW website at www.fishhunt.dfw.wa.gov
 - a. **WILD identification number (WILD ID)** - You will be asked to provide your WILD ID, which is printed on each license or transport tag you purchase and your sales receipt. This is your permanent identification number. **You will be asked to provide your birthdate if you use the Internet to submit your application.**
 - b. **Choose a Species** - Choose a species for which you would like to submit an application. The new licensing system will only accept applications for species for which you have already purchased a special hunting season permit application.
 - c. **Group Number** - You will be asked if you want to apply by yourself or if you want to be a part of a group. If you want to apply for a permit by yourself, you will not need to provide a group number. If you want to apply as part of a group, identify the group leader by his/her WILD ID number and the passcode for the application. If you are the group leader, choose a passcode and go on to the next step. If you are not the group leader, you are done.

d. **Passcode** - Passcodes are useful for group applications. It is a four digit number like a PIN number. Your passcode ensures that others are prevented from inadvertently becoming part of your group. Use of a passcode is not required, but if used, must be told to each individual group member before his/her application can be successfully submitted.

e. **Hunt Choices** - If you are applying by yourself or if you are the group leader, respond to the telephone prompts with your hunt choices or fill in the proper blanks on the website application form.

Multiple Hunt Choices - It is possible to apply for a maximum of four hunt choices. It is not necessary to apply for more than one hunt choice number, but each hunt will be considered in the drawing in order of priority if more than one is requested. Each hunter must be eligible to apply for each hunt choice requested. Make sure that you and each group member have the correct transport tag for each hunt on the application.

Identification Number - It is very important to make certain that the identification number used in previous drawings is reflected in your license records when purchasing your 2002 hunting license. Your social security number will be required when purchasing hunting licenses in 2002. Hunters under 15 years of age do not have this requirement. It is important for hunters under 15 years of age, who used their social security number when applying for permits, to provide it while purchasing a 2002 hunting license. The social security number is the identification number most commonly used. Driver's license numbers have also been used. The new licensing system is capable of storing both of these numbers in your license records. If the identification number that was used in past permit drawings is not in your 2002 license records, the points you accrued in past drawings will not be considered.

Group Applications - Group applications will be accepted for any species for a group size larger than one. A group application works the same as a "partnership" application has in the past. If a group application is drawn, all of the hunters in the group receive a permit and each hunter can take an animal. The points accumulated by each hunter in the group are averaged and applied to the group application. Note that applying as a group does not increase your chances of successfully drawing a permit. The maximum group sizes for each species are listed below:

- 12 Deer
- 12 Elk
- 2 Mountain Goat
- 1 Moose & Bighorn Sheep (not eligible for group application)
- 2 Cougar
- 2 Black Bear
- 4 Turkey

Group Application Leader -

- Makes the hunt choice selections on the application
- Makes up the “passcode” for the application.
- Tells the other hunters in the “group” his/her WILD ID number and passcode.
- Is the only one in the group that can make changes to the application after it has been submitted.

Once-In-A-Lifetime Hunts - A hunter can only draw and accept one bighorn sheep, moose, or mountain goat permit in his/her lifetime. Those who have drawn permits for sheep and moose will be disqualified if they apply again. Those who drew mountain goat permits in 1999 and beyond will not be eligible to apply again.

This lifetime permit holder restrictions does not apply to mountain goat permits acquired before 1999, raffle or auction hunt authorizations, or youth only moose hunts.

Multiple Applications - The new license system will only allow each hunter to purchase one application for each species.

Deer and Elk Transport Tags - Applicants for deer or elk special hunting season permits must have a valid deer or elk transport tag as specified in the deer and elk special permit hunt tables. For example, to apply for an archery only elk hunt in the Colockum area, it is necessary to have an Eastern Washington Archery Elk transport tag. The WILD system will not allow you to apply for

permits which are in conflict with the transport tag you have. No refunds or exchanges for deer or elk transport tags will be made for anyone applying for deer or elk special hunting permits.

Mountain Goat, Moose, or Bighorn Sheep Hunting Licenses and Transport Tags can only be purchased by hunters who successfully draw permits for those species. Hunters who successfully draw a mountain goat, moose, or bighorn sheep permit must send a check or money order, for the appropriate fee, to the WDFW Olympia office within 15 days of the notification mailing or the permit will become void and will be offered to an alternate applicant. No refunds or exchanges will be made for those drawing a special hunting season permit and purchasing a mountain goat, moose, or bighorn sheep hunting license.

Special Permit Hunting Activity Reporting - Those successfully drawing special hunting season permits are required to report their hunting activity by January 31, 2003.

Notification of Drawing Results - All hunters who submit an application for a special hunting season permit will receive notice of the results in the mail by August 3, 2002. **After August 3, if you have not received a notice, you may check drawing results by calling a WDFW office or look up your results by checking the WDFW internet website www.wa.gov/wdfw.**

Need help in selecting and submitting your Special Hunting Season Permit Application

The Department, in partnership with local sporting goods businesses and outdoor recreation organizations, will be conducting “Go Play Outside Hunters Clinics,” on a test basis, in Spokane, and Longview during June 2002.

You can get your hunting related questions answered and in-person assistance with permit applications and mandatory hunter reports. In addition you can attend a number of free hunting “how to” workshops presented throughout the day, and kids can enjoy youth-oriented hunting and shooting sports activities and receive free gifts.

Special Hunting Season Permit Application Worksheet

Fill in this form before submitting your application for special hunting season permits. Do not mail this form as a special hunting season permit application. It will not be accepted. Use it only for reference while submitting your application over the telephone or the Internet.

- The WILD Identification Number is found printed on your hunting license under your name. This is your personal and permanent Identification Number and identifies you in the WILD licensing system.
- The Group Leader Number is the WILD Identification number of the hunter you choose to make the hunt choices for your group. If you want to apply by yourself, the Group Leader Number is not needed.
- The Group Leader Number is a secret passcode known only by the group leader. The group leader chooses a passcode while submitting the first special hunting season permit application for a group. Other than the group leader, the only people who know the passcode are those informed by the group leader. The passcode is a four digit number, much like a PIN used for ATM cash machine withdrawals.
- Fill in the information only for the species for which you have purchased a special hunting season permit application.

Submitting Bear Teeth

Successful black bear hunters must submit the black bear premolar tooth, which is located behind the canine tooth of the upper jaw.

Tooth envelopes are available at all regional offices and at the Olympia office (see page 4).

Cougar

General Season:

Statewide, Aug.1, 2002 - March 15, 2003.

License Required: A valid big game hunting license which includes cougar as a species option is required to hunt cougar.

Bag Limit: Two (2) cougar during the 2002-2003 hunting season. It is illegal to kill or possess spotted cougar kittens or an adult cougar accompanied by spotted kittens.

Tag Information: One cougar transport tag/license is included with a big game license that has cougar as a species option. A second cougar transport tag/license must be purchased to take a second cougar.

Hunting Method: Hunters may use any lawful big game modern firearm, archery, or muzzleloader equipment for

Hide Sealing Requirements

Successful cougar hunters must:

Notify WDFW within 72 hours of kill (excluding legal state holidays). Present the cougar skull and pelt to WDFW within 5 days of notification of kill for sealing.

Successful bobcat hunters must:

Present the raw bobcat pelt, within 20 days of the close of the hunting or trapping season in which it was killed, to WDFW for sealing.

Present skull and hide so that teeth and biological samples can be taken. Placing a stick or wedge in the cougar's mouth after harvesting it, aids in the removal of teeth for biological sampling.

No one may possess an open department seal for cougar or bobcat unless the seal has been cut by a licensed taxidermist or fur dealer who has received and invoiced the pelt for processing.

Both must call regional office to make appointment for sealing.

Both must submit skulls or hides that are not frozen.

hunting cougar. Cougar may also be hunted with a 22 caliber or larger centerfire rifle. Rimfire 22 caliber is not lawful. The use of hounds to hunt cougar is prohibited statewide except during public safety cougar removals.

For information on possible public safety cougar removals, please contact the Olympia office or one of our regional offices, or check the WDFW website.

Deer General Information

Reminder: 3 pt. min. for all mule deer in eastern Washington.

Description: To hunt deer in Washington, you need to:

1. Purchase a big game hunting license with a deer option.
2. Choose the appropriate deer transport tag for one of the following hunting methods: modern firearm, muzzleloader, or archery.
3. Hunt only the seasons outlined for the hunting method option.

Bag Limit: One deer per hunter during the 2002 hunting season. (Only one big game license with a deer tag option may be purchased per hunter per year).

General Season Listings: The next few pages provide general deer seasons for each hunting method option.

Special Deer Permit Hunts: These are listed at the end of the Deer Section. Hunters may apply for these special deer permit-only hunts. Check the Deer Permit table (pgs. 31-33) for hunt dates and the deer tag needed to apply.

Permit Only Units: The following GMUs are closed during general seasons: 290 (Desert), 329 (Quilomene), 342 (Umtanum), 371 (Alkali), and 485 (Green River).

GMUs Closed to Deer Hunting: 157 (Mill Creek Watershed) and 522 (Loo-wit).

Firearm Restriction Hunts: These are open to all deer hunters and are listed on pg. 17.

Antlerless: Deer without antlers. Doe or fawn deer are antlerless.

Any Buck: Any deer with visible antlers may be taken (fawns illegal).

Black-tailed Deer: Any member of black-tailed/mule deer (species *Odocoileus hemionus*) found west of a line drawn from the Canadian border south on the Pacific Crest Trail and along the Yakama Indian Reservation boundary in Yakima County to Klickitat County, and in Klickitat County west of Hwy 97.

Mule Deer: Any member of black-tailed/mule deer (species *Odocoileus hemionus*) found east of a line drawn from the Canadian border south on the Pacific Crest Trail and along the Yakama Indian Reservation boundary in Yakima County to Klickitat County, and in Klickitat County east of Highway 97.

White-tailed Deer: Means any white-tailed deer (member of the species *Odocoileus virginianus*) except the Columbian White-tailed Deer (species *Odocoileus virginianus leucurus*).

2 Pt. Minimum: A legal deer taken in these GMUs must have at least 2 antler points on one side. (A 2x2 or a 2x1 are legal in a 2 Pt. min. unit.) All antler points must be at least one inch long. Antler points include eyeguards -- if at least one inch long.

Elk General Information

Spike Bull Restrictions: Elk taken in these units must have at least one antler that is a spike that does not branch above the ears. An animal with a spike on one side (1x2) is legal in spike only units. An animal with branched antlers on both sides (2x2) is illegal. Spike bull only GMUs: 145-154, 162-186, 302, 249-251, and 335-368.

3 Point Minimum Elk: A 3 Pt. Min. elk means that a legal elk in these GMUs must have at least 3 antler points on one side only. Antler points may include eye guards, but antler points on the lower half of either main beam must be at least four (4) inches long, measured from antler tip to nearest edge of beam. All other antler points must be at least one inch long. A 1x3 and a 2x3 are legal elk in a 3 Pt. Min. unit. 3-Point GMUs: All of western Washington, except for GMUs 454, 564, 568, 574, 578, 588, and Muzzleloader Elk Area 941.

Any Elk: Any elk may be taken. (Has been referred to as "Either Sex" in the past.)

Antler Points: Antler points must be at least one-inch in length measured from tip of point to nearest edge of beam. See 3 Point Minimum elk definition below.

Visible Antler: A horn-like growth projecting above the hairline.

Any Bull Elk Seasons: Open only to the taking of elk with visible antlers (bull calves are illegal).

Spike Bull Restrictions: Elk taken in these units must have at least one antler that is a spike that does not branch above the ears.

3 Point Minimum Elk: A 3 Pt. Min. elk means that a legal elk in these GMUs must have at least 3 antler points on one side only.

Spring Closures: Some WDFW lands adjacent to winter feeding sites are closed March 1-April 25 and others to May 15 to all public entry. During this period wildlife are recovering from winter stress and cannot tolerate disturbance in critical green up areas. Areas will be defined by posted notices and maps at all major entry points.

Bag Limit: One elk per hunter during the 2002 hunting season. (Only one elk tag may be purchased per hunter per year.)

Description: *To hunt elk in Washington, you need to –*

1. Purchase a big game hunting license with an elk tag option.
2. Choose the elk tag that designates the area you will hunt in and the hunting method you will use.

a. Elk Tag Area: You must choose either eastern or western Washington to hunt and buy the tag for that area. Elk areas are shown on the map on the previous page.

b. Hunting Method: You must select one hunting method modern firearm, archery, or muzzleloader.

GMUs Closed to Elk Hunting: 418 (Nooksack), 485 (Green River), 490 (Cedar River), 522 (Loo-wit), 636 (Skokomish), and 437 (Sauk) except for Muzzleloader Area 941.

General Elk Seasons: After you have chosen the area you will hunt and the hunting method you will use, go to the corresponding page (modern firearm, archery, muzzleloader) for general season dates.

Special Permit Hunts: Tag holders may apply for hunts that are open to hunters by special permit only. See pgs. 40-43 for a list of permit hunts and the specific tag needed in order to apply for each hunt.

Modern Firearm General Elk Seasons

License Required: A valid big game hunting license with an elk tag option.

Tag Required: Valid modern firearm elk tag on his/her person for the appropriate area.

Elk Tag Area: You must choose either eastern or western Washington to hunt elk. Elk tag areas are shown on the map on pg. 34.

Hunting Method: May use rifle, archery, or muzzleloader, but only during modern firearm seasons. Hunting equipment must meet regulations on pg. 14.

Firearm Restrictions: The GMU you hunt in may be affected by a firearm restriction that will not allow you to use a rifle. The following GMUs have Commission-designated firearm restrictions for high power rifles affecting all or portions of a unit: GMUs 334, 410, 504, 554, 564, 624, 627, 633, 652, 658, 660, 666, and 684.

Hunter Orange: 400 square inches of Hunter Orange is required for anyone hunting deer or elk in an area currently open to modern firearm deer or elk hunting. See pg. 10.

Permit Only Units: The following Game Management Units are closed during general seasons: GMUs 157 (Mill Creek Watershed); 524 (Margaret); 556 (Toutle); 621 (Olympic); and PLWMAs 401 (Rainier Timber Co.) and 600 (Merrill and Ring).

^d Modern Firearm, Archery, and Muzzleloader tag holders may apply, but all hunters must wear hunter orange. Entry into the Watershed is by US Forest Service permit only. Under no circumstances will the US Forest Service issue an entry permit to anyone other than a controlled tag holder. The one exception to this rule is that once a tag holder kills an animal, one person may accompany the permit holder to help remove the carcass from the watershed. Persons unable to hunt alone should apply as a partnership or not apply for this hunt.

^e Access may be restricted to weekends only on Weyerhaeuser's Mt. Saint Helens Tree Farm (see page 16).

^f That part of GMU 621 south of BPA powerlines.

Hunter's Code of Conduct

Respect the Environment and Wildlife

Show respect for the wildlife you hunt by taking only clean, killing shots, then retrieving and properly handling your game. Take only what you will use, even if it is under the legal limit.

Learn to tread lightly while afield. Use vehicles only on established roads and trails, practice low-impact camping and travel, and pack out your trash, including cigarette butts and spent shell casings. Report illegal activities immediately.

Respect Property and Landowners

Always get permission to hunt on private land.

Close any gates you open, and never damage crops or property, including fences, outbuildings or livestock.

Alert landowners or land managers about any problems you find on their property.

Share your game with the landowner, or say thank you in some other way.

Show Consideration of Non-Hunters

Remember that the future of hunting depends on hunters and non-hunters alike. Be considerate of non-hunters' sensibilities, and strive to leave them with positive images of hunting and hunters.

Don't flaunt your kill. Treat game carcasses in an inoffensive manner particularly during transport.

Be considerate of all outdoor users, including other hunters.

Hunt Safely

Exercise caution at all times.

Fire your gun or bow only when you are absolutely sure of your target and its background. Use binoculars, not your rifle scope, to identify your target.

Wear hunter orange whenever appropriate or required while afield.

Remember that hunting and alcohol don't mix.

Know and Obey the Law

Obtain proper tags and licenses.

Hunt only in allowed areas and during designated times and seasons.

Obey bag and possession limits.

Use only legal hunting methods and equipment.

Support Wildlife and Habitat Conservation

Provide hands-on and financial support for conservation of game and non-game species and their habitats.

Learn more about wildlife and habitat issues, and urge policymakers to support strong conservation initiatives.

Become involved in wildlife conservation organizations and their programs.

Purchase state and federal wildlife conservation stamps, even if such stamps are not required for hunting.

Pass on an Ethical Hunting Tradition

Invite a young person or a non-hunter next time you go afield to scout or hunt. Attend a hunter education course, and urge others to do the same.

Set high ethical standards for future generations of hunters to help ensure hunting will continue.

Strive to Improve Outdoor Skills and Understanding of Wildlife

Know the limitations of your skills and equipment, and hunt within those limits.

Improve your outdoor skills to become more observant, a better hunter, and a better teacher. Sight-in your firearm and bow, and practice shooting to ensure a clean kill in the field.

Learn more about the habits and habitats of game and non-game wildlife and their management needs.

Hunt Only with Ethical Hunters

Take pride in being an ethical hunter.

Insist that your hunting partners behave in a responsible, ethical manner. Compete only with yourself.

State Lands

The Washington Department of Natural Resources (DNR) manages 3 million acres of state trust land. These lands are managed to generate income to build public schools, universities, and provide other public benefits. They also provide habitat for fish and wildlife, and offer many opportunities for recreation, such as camping, hunting and fishing.

Each year, thousands of people recreate on public and private lands; most of them treat the land and its resources with respect. But a few do not, and they cause problems for many people who recreate responsibly. Increasingly, private landowners are closing their lands to protect them from vandalism and theft. DNR wants to continue to keep trust lands open for hunting and fishing, but we need your help.

With the listings of many species as threatened or endangered, DNR needs to work harder to protect habitat. Wildlife need snags, trees and brush; fish need streams with clean water and gravel. Healthy habitats help provide healthy fish and wildlife populations. You can help. When you're hunting or fishing, please remember the following:

- Keep vehicles on roads and out of streams and wetlands.
- Get a permit before cutting large amounts of firewood.
- Snags and downed logs are best used for wildlife habitat, not for firewood.
- Leave your camp area as clean or cleaner than you found it.

For information, contact the nearest DNR region office, or call 1-800-527-3305. Report violators when you see abuse. Help keep public lands open to the public.

Changes for Parking Permits on WDFW Lands

The Department manages 800,000 acres of prime wildlife habitat and 600+ lake and river access sites across the state for your use and enjoyment. A **Vehicle Use Permit** from the Washington Department of Fish and Wildlife (\$10 or FREE with a hunting or fishing license) is required. Permit sales support upkeep of these areas which are currently operating at 34% of the funding need. More information at www.wa.gov/wdfw/ or call a Fish and Wildlife office. **You can do more than hunt and fish on Department lands.**

The permits required for parking vehicles at Washington Department of Fish and Wildlife (WDFW) wildlife areas and water access sites have a new name, look and display requirements. The **Vehicle Use Permits**, formerly known as Access Stewardship Decals, are required for use of all posted WDFW lands. The permits generate funding for maintenance of WDFW lands and water access sites used by hunters, anglers, boaters, bird watchers and other recreationists. The permits are now issued only once annually to each license holder and are transferable between up to two vehicles. In the past, a parking decal was issued with each license purchase but could not be transferred between vehicles. Additional permits may be purchased for \$5 each. Original permits are \$10 each if purchased separately without a fishing or hunting license.

The new permits must be clearly displayed and visible from outside the vehicle. They can be placed on the dash or hung from the rear view mirror.

The penalty for parking on WDFW lands without a permit also has been revised. The infraction for parking without a permit will be automatically reduced from \$66 to \$30, if the vehicle owner shows proof he or she has purchased a permit within 15 days of the violation.

The parking permit changes were approved by the Legislature last year.

Other Questions About The Hunter Education Training Program?

Please contact a member of the hunter education staff if you have questions about training requirements, class schedules, Advanced Hunter Education, etc. Our hunter education staff is here to help you!

In eastern Washington, please contact our hunter education staff at the Department of Fish and Wildlife Ephrata office at (509) 754-4624.

In western Washington, please contact our hunter education staff at the Olympia headquarters office at (360) 902-8111.

You can also visit the hunter education web site at <http://www.clearlight.com/hunting>

Bow Hunter Education Training

Bowhunter education is a partnership agreement among the Department of Fish and Wildlife, Washington State Archery Association, the Traditional Bowhunters of Washington and the Washington State Bowhunters. Although bowhunter education training is not required in Washington, it is increasingly required by other states. All courses meet standards of the International Bowhunter Education Program. (Reminder: Bowhunter Education classes do not meet the Washington training requirement to purchase a hunting license for first-time hunters born after January 1, 1972.)

Advanced Hunter Education Program Available

Hunters who successfully complete the Advanced Hunter Education (AHE) program are eligible to apply for AHE special permit hunts. The AHE program is a voluntary training program, and is designed to improve landowner-hunter relations, increase hunter knowledge and expand hunting opportunity and hunter access to private lands.

The AHE program combines home study, shooting proficiency, project work, video training and formal testing to help individual hunters improve their knowledge and skills. The program is open to all interested hunters who are willing to roll up their shirt sleeves and devote their time to each of these areas. Individuals who successfully complete the program and pass the examination will be issued a certification card and are then eligible to apply for AHE hunts.

For more information on the AHE program, please contact the Hunter Education Program staff in the Olympia office at: (360) 902-8114.

Home Study Hunter Education Training

The best way to learn and develop safe hunting skills is in a training program taught by certified hunter education instructors. Hunter education classes are popular and fill up quickly, so be sure to register early for hunter education classes in your area.

Unfortunately, our *2002 Hunter Education Calendar* contains fewer classes than in years past. **It is very likely some individuals interested in enrolling in hunter education training will not be able to find an available class in their area.**

If classes are full or unavailable in your area, you may obtain information about completing the Home Study program by writing to the Department of Fish and Wildlife, Hunter Education Program, 600 Capitol Way N, Olympia, WA 98501-1091. You may also learn more about the Home Study Program by looking at the hunter education web site. Please note that the Home Study Program requires discipline, time and individual motivation. It is not an easy alternative to a traditional class!

Duplicate Hunter Education Cards

Duplicate hunter education training certificates are available only from the Olympia Department of Fish and Wildlife office. An original application form--available at regional offices and the Olympia hunter education office--along with an \$8 check made payable to WDFW/Hunter Education are required to process all duplicate requests. **NO TELEPHONE, FAX, OR E-MAIL DUPLICATE REQUESTS CAN BE PROCESSED** because an original application form is required for each request.

Please allow a minimum of 10 working days to process requests for duplicate hunter education certificates. Due to the heavy volume of requests for duplicate hunter education certificates received during hunting season, expect delays longer than 10 days.

If you plan to hunt out of state, or if you want a permanent, plastic, credit-card size copy of your hunter education certificate, please pick up a copy of the application for duplicate hunter education certificates at your nearest WDFW office.
